Child Safety Training

Why do we do this anyway?

A child safety policy, which includes:

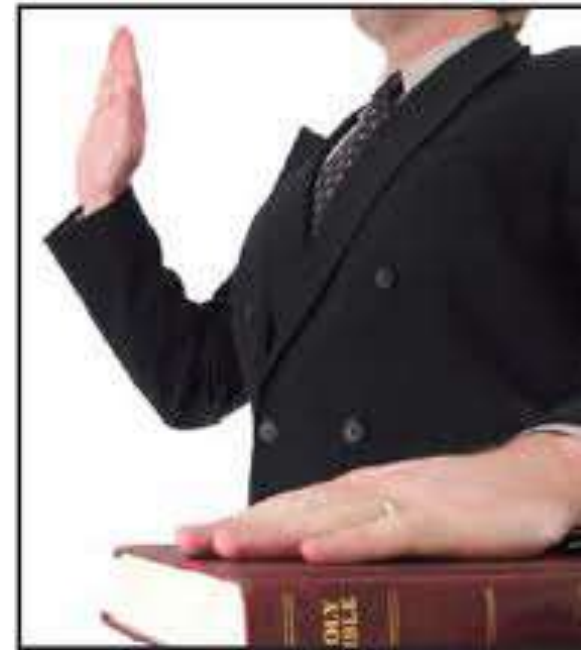

- Live scan requirements, with continued reporting
- Initial training
- Annual refresher training
- Continued monitoring of ministries
- Cooperative assistance of ministry partners
- Church Board approved ministries

Protects the children, ministry workers, parents and the congregation.

Remember, we as ministry workers have a duty to protect children from unsafe conditions.

We should always be looking for hazards such as:

- loose electrical wires or outlets without covers
- tripping hazards
- small toys in nursery areas which present a choking hazard
- changes in weather such as ice and snow
- broken windows
- sharp edges on furniture
- holes or other tripping hazards on lawns or other outdoor areas
- excessively rough play of children
- Areas of isolation or darkness.

Nursery

- Nursery workers must be at least 18 years of age.
- A minimum of two trained, cleared, nursery workers is required.
- Have the right number of workers based on the need. If you have a lot of children and need more help, let a deacon or the deaconess in charge of nursery know, get a third nursery worker.
- Read the nursery daily sign in sheets for allergies, permission to pick up, Etc. Ensure parents / guardians complete a Nursery Sign-in sheet.
- Use the pager system for parents dropping of children.
- Give a pager to the deacon doing the safety check or the deaconess in charge of nursery, you can page them if you need help.
- Nursery is open to children, newborn until age 5 is reached.
- Contact the Deaconess in charge of nursery with Questions.
- Parents must designate an adult on the Nursery Sign-in sheet if they are having someone else pick up children.
- Be aware of children who are ill or appear to be.

Children's Church

- A minimum of 3 trained and cleared workers are required.
- Children's Church begins when the children are dismissed from the sanctuary after the worship team completes music.
- On Communion Sunday, children remain in the Sanctuary until Communion is complete. Normally no Children's Church is conducted on communion Sunday.
- Use the ministry cards, to check for allergies, who can pick up, etc.
- Take roll of children in attendance, ensure workers sign in also.
- Ensure games are appropriate for a broad range of ages.
- Children's Church is open for children age 5 through 4th grade. Once a child begins the 5th grade, they are too old for Children's Church.
- Contact the Ministry Leader for questions.
- Parents are encouraged to pick up children as soon as the service is over.

“Making your church safe from child sexual abuse”

Teaching our kids to “ BEWARE of STRANGERS” did more damage than good

Child sexual abuse can occur in any church

Child sexual abuse is always criminal behavior

80% of molesters are someone the child knew

20% of offenders begin before the age of 18

All states do not share the same definition of child sexual abuse

Child Sexual Abuse does not always include physical contact but may involve showing the child photographs or video of a sexual nature

Child Sexual Abuse often goes unreported

Church leaders who do nothing to prevent child sexual abuse can be found to be negligent

Most abuse takes place in the context of an ongoing relationship

What is Child Sexual Abuse?

Any sexual activity with a child – whether in the home by a caretaker, in a daycare situation, a foster / residential setting or in any other setting, including on the street by a person unknown to the child. The abuser may be an adult, an adolescent, or another child, provided the child is four years older than the victim.

All Child Sexual abuse is an exploitation of a child's vulnerability and powerlessness in which the abuser is fully responsible for the actions.

Child sexual abuse is *criminal behavior* that involves children in sexual behaviors for which they are not personally, socially and developmentally ready.

Sexual Offenders are more often male than female.

Remember Preferential Sexual Offenders will invest great amounts of time, money and effort in order to gain access to a particular child. Situational Sex Offenders do not have a preference in who they harm but are looking for an opportunity when a child may be vulnerable.

Isolation, Accountability and Risk

Risk increases as Isolation increases. We reduce isolation with windows in doors, outdoor lighting and regular safety checks. We further reduce isolation by including multiple ministry workers in each ministry area and policies which include no private one on one ministries.

The greater the accountability a ministry has the lower the risk.

Three factors affect Accountability:

- 1. The personal character and integrity of the adult worker.**
- 2. The number of people present at the activity.**
- 3. The degree of openness and approval associated with the activity.**

Reporting Child Sexual Abuse

Mandatory reporters include: Law Enforcement Officers, Health care professionals, Public and Private school workers, Clergy (Pastors), Etc.

You should report any known or reasonably suspected cases of Child Abuse or Child Sexual abuse.

If you are a mandatory reporter- you must make your report to local law enforcement.

All others should report to; a member of the Official Church Board, The Pastor and or Local Law Enforcement.

Strict confidentiality must be exercised. Only those persons with a need to know should be advised of the circumstances of an allegation (eg: Law enforcement, Church Pastor, Board Members, Ministry Leaders).

What do we do if an allegation is made?

- **Document the allegation**
- **Provide support for the victim**
- **Respond to Congregational concerns**
- **Fulfill reporting requirements**
- **Seek Professional assistance**
